What's the problem?

- The NHS is automatically on the table in trade deals, with the US and other countries - unless it is specifically and comprehensively excluded during negotiations
- We have no confidence that the government is able or willing to exclude our health service from trade deals

What's the Trade Bill?

- Published in March 2020
- Amendments to protect the NHS fell at third reading in the House of Commons in July
- Now it's up to the Lords
- 8th September - and then debates for a few weeks after that

What are we asking Lords to do?

- ❑ Come to our exclusive briefing webinar for members of the House of Lords next week
- ❑ Table and vote for an amendment to the Trade Bill to protect the NHS from trade deals
- ❑ Vote for an amendment to give Parliament more powers of scrutiny over trade deals.

What are we asking YOU to do?

- ❑ Adopt a Lord - write a personalised letter to a member of the House of Lords, inviting them to our briefing meeting, and asking them to stand up for the NHS

Writing your letter

- Research your Lord (we'll tell you how you're going to choose your Lord in a minute)
- Tell them the Trade Bill is back on the 8th of September
- Tell them that you are counting on them to stand up for the NHS - and why that is important to you
- Invite them to find out more and hear the evidence by joining our briefing webinar - Copy the link below so that they can register to join:

<https://bit.ly/34ZSuyd>

Adopting your Lord

- In a moment we're going to share a link to an online spreadsheet with you.
- We want you to click on that link
- You'll see a list of every single member of the House of Lords - their name and email address.
- Scroll down until you find the one you'd like to adopt, and write your name or initials into the spreadsheet in Column C
- Write down the name of your Lord somewhere sensible as well so you remember which one you've picked!

Thank you!
